VUONG TRAN

https://github.com/duckytran2k6 • skipper.tran24@gmail.com • (226) 577-4272 • London, ON

SKILLS

- **Technical:** Java, C, Python, Linux/Unix, Bash, Git, GitHub, Docker, libvirt, iptables, Wazuh (SIEM)
- **Security & Systems:** SIEM Logging & Alerting, Network Segmentation, Firewall Configuration, Intrusion/Attack Simulation, Virtualization, Shell Scripting & Automation, Symmetric Encryption
- **Interpersonal:** Problem Solving, Clear Communication, Technical Assistance, Collaboration, Adaptability, Curiosity, Critical Thinking

PROJECTS

SOC Homelab Project Summer 2025 - Present

- Established real-time security event logging and alerting across a multi-VM environment by deploying Wazuh SIEM, enabling detection and analysis of simulated attack activity.
- Contained and isolated offensive/defensive simulation activity by architecting a segmented network with iptables, separating an attacker VM from target systems for safe, hands-on attack analysis.
- Reduced manual environment setup time by automating VM and container provisioning with shell scripts, enabling on-demand deployment of Windows and Ubuntu target systems through Docker and libvirt.

Local Text File Encryption Tool | Java Summer 2024

- Designed and implemented a local file encryption and decryption tool using symmetric encryption, eliminating cloud dependency and strengthening data security.
- Developed a command-line interface that enables users to encrypt, decrypt, and manage files efficiently.
- Ensured secure file handling, usability, and robust error management for practical applications.

VOLUNTEER EXPERIENCE

Peer Tutoring | Western University Jan. 2025 to Apr. 2025

London, ON

- Tutored first-year students in CS1032, Information Systems and Design, through hands-on practice and one-on-one sessions.
- Walked students through problem solutions with clear communication, guiding them to improve their own work on their own.

Tour de Fox Guide | Terry Fox Secondary School Jan. 2024

Port Coquitlam, BC

- Led guided tours for groups of Grade 8 students, introducing school facilities, programs, and course pathways.
- Communicated with students and parents to address questions and ensure a smooth high school transition.
- Facilitated interactive activities to boost engagement and participation.

Pro-D Day Assistant | Terry Fox Secondary School Feb. 2024

Port Coquitlam, BC

- Supported school-wide professional development events by coordinating logistics and assisting visiting educators.
- Provided on-site technical support during events, including projector setup, cable management, wireless connectivity troubleshooting, and facility navigation, maintaining event flow.
- Guided attendees through digital check-in and event schedules, improving registration efficiency.

EDUCATION

BSc. - Specialization in Computer Science

Western University London, ON • Expected Jun. 2028

- **Coursework:** Data Structures and Algorithms, C and Unix, Linear Algebra, Data Science, Database Organization
- **Clubs and Activities:** Western Judo Club, Computer Science Undergraduate Society
